Options

- Open iTunes when this iPad is connected
- Sync with this iPad over Wi-Fi
- Sync only checked songs and videos
- Prefer standard definition videos

Internet

- Many musicians get chord charts off the Internet
- It has questionable content — *availability, format, legality*
- OnSong incorporates an Internet search but it's limited
- Just search, select your songs and choose import
- You can preview songs before importing

SongSelect

- Most churches have a CCLI SongSelect account
- Uses the mobile app version of SongSelect inside of OnSong
- Import either text-based lyrics or PDF chord charts
- The PDF format is not optimal for use with OnSong
- Can't use most of OnSong's best features
- Converting SongSelect files is difficult at best

MobileMe

- Web-based storage provided by Apple
- Works just like Dropbox
- MobileMe has been discontinued
- Working to provide iCloud support soon

Other Sources

- You may have files stored in another place
- You can add songs from FTP, S3 and WebDAV
- If you don't know what any of those mean, don't worry
- Create a source and enter your connection information
- Choose your source and import like Dropbox

Synchronizing

Keep your devices in sync with Dropbox

Synchronizing

- Copies your OnSong library to Dropbox or other source
- Your songs are not always files — added into database
- To make your songs files, use “Sync As Files” in settings
- You manually synchronize by using the “+” button
- OnSong evaluates the files and uploads/downloads
- Turn off Ad-Hoc networking in the live bar for best results
- We are constantly working to improve synchronization
